Solid Waste Administration
Department of Environmental Protection
Division of Environmental Quality
John Fitch Plaza, CN 027
Trenton, New Jersey 08625

Gentlemen:

On April 17, 1981, your agency received correspondence regarding the issues of waste flow as it pertains to Combe Fill Corp. The waste flow order promulgated by the Department of Environmental Protection on January 29, 1981 went into effect May 1, 1981. As one month has elapsed since the effective promulgation date, we have had an opportunity to review the facts and feel it necessary to point out various shortcomings.

Our records indicate that the following companies have not fully complied to date with the promulgated waste flow orders:

Browning Ferris Industries
Statewide Environmental Contractors
PolICASTRO Services Inc.
Morris County Sanitation Inc.
High Point Sanitation Inc.
Model Disposal
J. Filiberto Sanitation Inc.

It is further our understanding that the Board of Public Utilities and the Department of Environmental Protection license, and approve or disapprove applications for solid waste collectors. As the aforementioned companies have violated the orders heretofore identified and as neither agency has made any effort to enforce the orders, I respectfully request a formal determination as to the procedures which will be taken, and the time in which these procedures will be implemented, so as to assure full compliance by all licensed collectors of the Morris County Solid Waste Management Plan.

Very truly yours,

COMBE FILL CORP.

Gary A. Molchan
Vice President
